

Application Number: 30765346 (Peng et al.) Art Unit 2815 Amendment continued 3 of 3

REMARKS-General

By the above amendment, applicants have amended the title to emphasize the novelty of the invention.

Applicants have elected II: group B2.

Also applicants have rewritten the claim 14, 16, and 18 to define the invention more particularly and distinctly so as to define the invention patentable over the prior art. Applicant withdraws the original claims 1 to 13, 15, 17, 19 to 24.

CONCLUSION

For all the above reasons, applicants submit that the specification and claims are now in proper form, and that the claims all define patentable over the prior art. Therefore applicant submits that this application is now in condition for allowance, which action they respectfully solicit.

Applicants have amended the claims of this application so that they are proper, definite, and define novel structure, which is also unobvious. If, for any reason this application is not believed to be in full conditions for allowance, applicants respectfully request the constructive assistance and suggestions of the Examiner pursuant to M.P.E.P. Section 2173.02 and section 2175.07(j) in order that the undersigned can place this application in allowable condition as soon as possible and without the need of further proceedings.
